

## **ASTON TIRROLD & UPTHORPE**

---

# **ENVIRONMENT GROUP**

In June 2017 the Aston Tirrold and Upthorpe Environment group was formed, following on from our Community Led Plan programme, which highlighted a need to set up group who focused on community environment issues. Some of the matters we are discussing on our agenda are as follows:

- Tree Surveys
- Creating a Hedge and Verge Management plan
- Biodiversity data collection
- Keeping our villages clean (which includes reviewing if we need more village dog bins around our communities)
- Community engagement events including specialist talks, guided walks, garden watches)
- Testing the water quality in our streams and winter brooks

**Once a month we meet as a group and if you are interested in joining or contributing in anyway please get in touch by emailing [dillon.anna@gmail.com](mailto:dillon.anna@gmail.com).**
